

# FENNER DUNLOP

CONVEYOR BELTING AMERICAS

A range of lightweight rubber and PVC conveyor belts suitable for a variety of applications including:

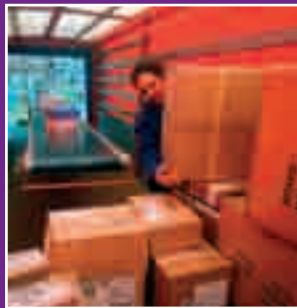

- Package handling
- Food handling
- Forest products
- Agriculture
- Recycling products

**CONVEYOR BELTING for over 80 years.** In that time we have pioneered some of the most significant developments in modern belt manufacturing: 100% synthetic fibers, straight warp fabrics and solid-woven carcass constructions in PVC. Our lightweight conveyor belts are designed to meet a variety of demanding applications.
